

Ontario's Virtual Learning Environment for School Administrators

The Virtual Learning Environment (VLE) is a dynamic learning platform powered by D2L's Brightspace. The VLE is provided by the Ministry of Education at no cost to Ontario publicly funded school boards. Ontario's VLE includes a digital portfolio tool, assignments, rubrics, a parent communication tool, lessons linked to curriculum expectations, quizzes, and much more!

The VLE supports learners with different needs and is inclusive with built-in accessibility features, allowing your teachers to support a range of student needs. Many of the stand-alone apps and tools educators commonly use are features in the VLE, helping streamline classrooms and schools through consistency (and security) with everything in one place. As a school administrator, the VLE can help you support learning in your school in a variety of ways. By looking at school data on a student, classroom, or school level (and beyond), administrators can easily view school-wide analytics and see what is working and what is not. VLE data can be used to make decisions about teaching and used to analyze learner outcomes.

VLE Features for School Administrators

Provides a safe and secure platform for educators to interact with students and parents

Tracks achievement data to help you align school improvement plans with student outcomes

Enables administrators to create an online community with their staff to support professional learning, and to share documents and more

Supports educators in sharing their learning with administrators related to Annual Learning Plan goals through Portfolio

Integrates with your SIS, so educators can easily get started

Provides a rich environment to support all students and all pathways, including credit recovery/rescue, alternative education and more!

VLE Access for your School

All publicly funded school boards in Ontario have access to the VLE at no cost. To set up a meeting, or if you have any questions about how the VLE can support your school's goals, please reach out to us at K12Ont@D2L.com. You can also log in or view VLE resources at www.D2L.com/VLE.
