

Brightspace Learning Environment

Redefining the Learning Experience

OVERVIEW

At D2L, we believe enabling people to realize their full potential through the power of learning can help make the world a better place. We support this belief by providing innovative, robust learning solutions that reflect the unique needs of organizations, instructors, and individual learners. As a partner who shares our clients' passion for education, we work with the entire learning community to empower instructors, develop leaders, and inspire learners to succeed on their lifelong learning journey.

By embracing both formal and informal approaches to education, we're striving to propel the eLearning experience into the future. Brightspace Learning Environment combines usability and accessibility best practices with integrated social tools to create a sophisticated, collaborative, and mobile-ready experience. With an offering that includes premium teaching and learning resources backed by powerful assessment and analytics capabilities, we're challenging conventional ideas about what a learning environment can and should be.

KEY BENEFITS

Get started right away | Learn the system quickly and easily so you can focus on what really matters—teaching and learning. With intuitive navigation that reflects a user-centric design and a support team that boasts years of experience handling migrations to Learning Environment from other systems, you can rest assured that the implementation will be as fast and painless as possible.

Committed to Accessibility | Our accessibility program is closely integrated with our research and development lifecycle to ensure the tools in Brightspace Learning Environment are standards-compliant and easy for people to use with assistive technologies and devices that support their needs.

Effective and customizable online pedagogy | Align learning objectives with content and assessments through our easy to use Instructional Design Wizard™ and Course Builder™ tools. The Learning Environment can be customized to match your institution's unique administrative, teaching, and learning preferences.

Improved decision-making, retention, and learner outcomes | Analyze the performance of an organization, department, course, or individual with built-in analytics functionality. The Learning Environment provides instructors with intelligent tools that allow them to adapt individual learning paths seamlessly to keep learners on track. Learners' individual needs and abilities can also be supported with tailored evaluation methods and flexible competency structures.

A LEARNING ENVIRONMENT THAT DOES IT ALL

Access Anywhere

Brightspace Learning Environment includes mobile web support across multiple platforms, responsive HTML 5 layouts and content, and a growing range of native mobile apps.

Collect and Share

Important files can also be stored in a secure Locker, making it easy to transfer content between individual courses.

Communicate and Connect

With a full-featured, integrated toolset—including e-mail, instant messaging, mobile notifications, engaging Discussions, and easy-to-access Social Profiles.

Design and Personalize

Educators can save time building and customizing content using powerful HTML course templates and intuitive tools like the Instructional Design Wizard and Course Builder. Instructional design best practices are easily incorporated to align assessments and learning experiences with course objectives. Designed as an open and extensible platform, the Learning Environment supports integrations with third party tools for further personalization of the learning experience.

Engage and Enrich

Keep learners engaged with course material by providing a rich, immersive experience. Our Insert Stuff Framework™, Video Note™ tool, and integrated shared media folders can be used to enhance learning by inserting multimedia content from virtually anywhere. And full support of LTI 1.1.1 standards ensures seamless integration of the Learning Environment with the third-party learning tools.

Measure and Guide

Faculty can access the information they need directly within Learning Environment using Brightspace Analytics Essentials™ Performance dashboards display student progress class-wide, offering the ability to drill-down and target a specific learner to reveal more details. The Dropbox tool supports offline grading and mark-up while also including audio and video feedback from the powerful Assignment Grader tablet app.

ABOUT D2L

A global leader in EdTech, D2L is the creator of Brightspace, the world's first integrated learning platform. The company partners with thought-leading organizations to improve learning through data-driven technology that helps deliver a personalized experience to every learner, regardless of geography or ability. D2L's open and extensible platform is used by more than 1,100 clients and almost 15 million individual learners in higher education, K-12, healthcare, government, and the enterprise sector—including Fortune 1000 companies. The company has operations in the United States, Canada, Europe, Australia, Brazil, and Singapore. www.brightspace.com | www.D2L.com
