

Subscription Training

Unlimited access to effective training resources

Subscription Training provides institutions with unlimited access to on-demand and live virtual Brightspace platform training for their instructors and administrators. This training solution enables institutions to scale the roll-out of Brightspace and keep instructors up-to-date with the latest improvements.

Key Benefits

Access training anywhere. With unlimited access to online training, instructors and administrators can access training whenever and wherever is convenient for them.

- **On-demand courses** can be accessed at any time, so instructors can progress through content at their own pace.
- **Live virtual training** allows instructors to attend training sessions from anywhere there's an internet connection.

More training courses to meet your needs. Institutions have access to a rich course catalogue, with content that can help instructors and administrators get started or become power users.

- **Tiered training approach** makes it easy for instructors to identify which courses match their skill level (Beginner, Intermediate, Advanced).
- **Use-case specific content** makes training contextual and relevant.

Get started with training right away. Instructors and administrators get immediate access to our training courses, which means they can get up-and-running faster.

- **Training content developed by D2L** means institutions don't have to carry the burden of training instructors themselves, saving them time and resources.
- **New courses constantly being developed** allows instructors and administrators access to new and timely product information.

ABOUT D2L

D2L is the software leader that makes the learning experience better. The company's cloud-based platform—Brightspace—is not a common one-size-fits-all learning management system (LMS). It's easier to use, more flexible, and smart. With Brightspace, you can personalize the experience for every learner to deliver real results. The company is also a world leader in learning analytics: its platform predicts learner performance so that you can take action in real time to keep them on track. Brightspace is used by learners in higher education, K–12, and the enterprise sector, including the Fortune 1000. D2L has operations in the United States, Canada, Europe, Australia, Brazil, and Singapore.
