

Continue Learning off Campus with Brightspace

From time to time, higher education institutions must close unexpectedly due to emergency situations such as inclement weather, natural disaster, emergency repairs to facilities, or even community illness. Unexpected and extended closures wreak havoc on learning progress and school calendars. We believe closures should not be taken lightly, but in the event they are necessary, preparation is required.

The ability to transition quickly from face-to-face or blended learning to fully online learning can alleviate some of the problems caused by extended closures.

“We examined every aspect of the LMS and the vendor relationship; from the mobile interface to the future roadmap, to the financial stability of the organization. In the end, there was overwhelming support for D2L and Brightspace.”

- David Starnes, Chief Academic Officer for Purdue Global

Why is Brightspace the best solution for your learning continuity?

Worry-free technology with a 99.9% uptime rate

Equitable and inclusive: Brightspace is accessible regardless of abilities, means, location, or device

Easy to scale: D2L has experience scaling colleges, universities, and more

Safe and secure: ISO 27001:2013 Certification and SOC 2 Compliance

Mobile friendly: Brightspace is the only leading learning management platform designed for mobile

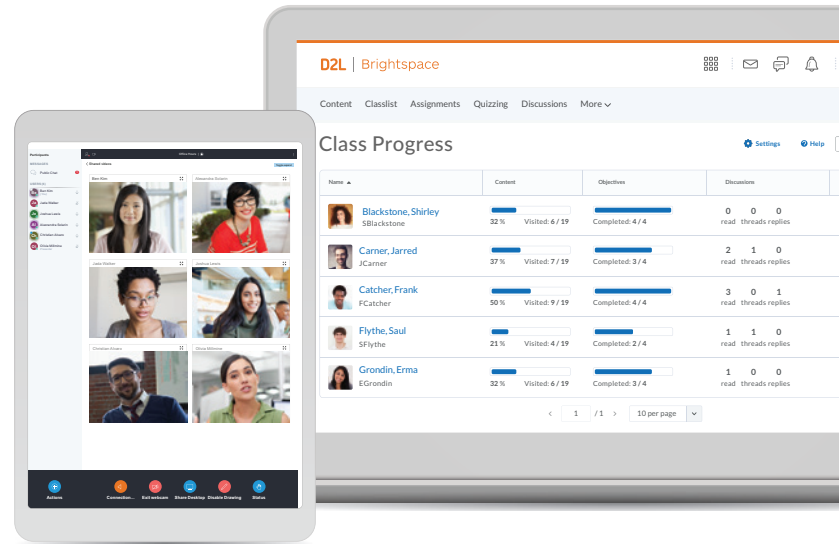

Access to hundreds of video tutorials designed to help administrators, instructors, and learners get the most out of Brightspace products and features.

Support is available 24x7x365

Brightspace has the tools to engage both students and instructors

- A seamless way to connect face-to-face with multiple parties for instruction, assessment, and feedback using virtual classrooms
- Give great feedback using video notes, annotations, and rubrics
- Keep students on track with automated nudges
- Automate the release of content and assessments—all based on a student's activity within a course
- Students can build presentation and critical thinking skills using built-in video capabilities

D2L has over 20 years' experience helping institutions shift to fully online or blended learning. We work closely with our customers all over the world to develop tailored plans in case of prolonged closures. This includes building an understanding of how to best support equitable learning continuity with an online learning platform. Brightspace provides scalable and personalized learning anytime and anywhere. We have clients who are using Brightspace in their learning continuity plans on a regular basis today. This experience has built our understanding of what is necessary to make learning work off campus for periods of time.
