

Welcome to the Webinar!

Capture Your Screen, Captivate Your Audience!

June 23, 2020

10:00-11:00am

Welcome and Introduction

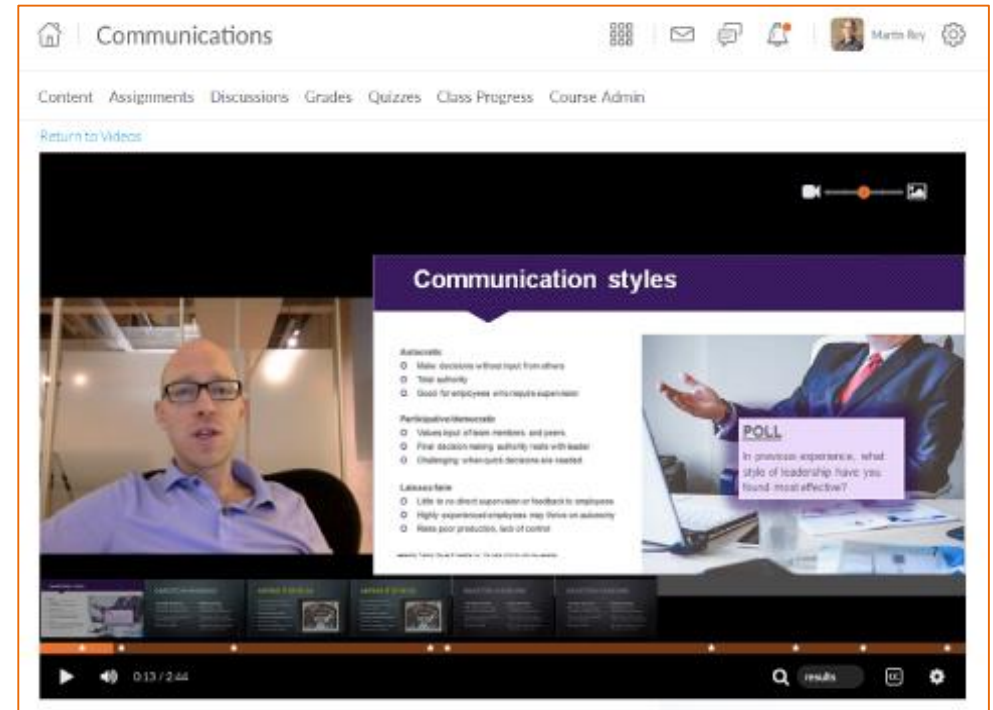

- David Gomes – TeLT Contact for the GECDSB for the past 4 years
- Secondary Math and Physics Teacher
- Support eLearning through the school year and summer school
- Experience with the Flipped Classroom, and have investigated and used many screen recording softwares (ie. Camtasia, Screencastify, Screencast-o-matic, iPad Apps, etc.)

Capture Your Screen, Captivate Your Audience!

What is Brightspace Capture?

- Capture is a means to record and share digital presentations
- Installable video recorder for Mac and Windows
- Can record screen and/or webcam, or upload a video file from computer or mobile device into Capture Central*
- Videos enter a playlist limited to your class, but can be downloaded or embedded into a webpage, content, etc.

*You may need to request access to Capture Central from your TeLT Contact

Capture Your Screen, Captivate Your Audience!

Why Use Brightspace Capture?

- Screen / webcam recordings load directly into your Brightspace course
- Encoder can be used to record videos online or offline
- Ability to upload videos recorded elsewhere through Capture Central
- Easy to use post-production editing tool
- Easy to create Think Aloud / How-To's

Capture Your Screen, Captivate Your Audience!

How to Start Using Brightspace Capture?

- Add the Capture Widget to Your Homepage
- Download the Encoder
- Record Your First Video
- Check Your Course Videos
- Edit Your Presentation in Post Production
- Upload a Video in Capture Central
- Sharing Out Your Capture Presentation
