

Learning Administration Manager

Need Dedicated Expertise to Help Administer D2L Brightspace?

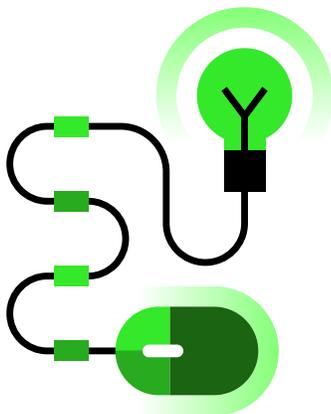

LET OUR TRAINED BRIGHTSPACE EXPERTS ADMINISTER YOUR LEARNING ENVIRONMENT

Your Learning Administration Manager (LAM) will address the day-to-day administration tasks for your Brightspace learning environment and provide consulting to optimize your site, so you can focus on your strategic goals. Whether you need a resource to help share your responsibilities or a full-time dedicated administrator, we have you covered.

Save time hiring or training an in-house resource and reduce concerns around business continuity. Your LAM is a D2L-trained Brightspace expert who can help your organization accomplish more in less time.

Work with an expert who understands your organization's goals and needs. Delegate all the administration of Brightspace to a D2L expert, get data guidance, and consult on product knowledge and best practices.

Optimize how Brightspace is being used at your organization. Your LAM can support with platform configuration and management and keep your learning environment up to date with new features as they're released.

“Our LAM Administrators have been amazing! They are **efficient**, knowledgeable, and **responsive**. Bonnie and Matt are integral members of our implementation team. With their help, we were able to rapidly pivot to online learning.”

Chappel Billings, Director of Digital Learning and Technology Innovation,
Education Opens Doors, Inc.
