# D2L BRIGHTSPACE

The VLE Powered by D2L Brightspace and Your Mathematics Classroom

The VLE powered by Brightspace is your your free dynamic learning platform. Whether teaching in-person, online or using a blended learning model, the VLE can help support teaching and learning in your math class.

TEACHING AND LEARNING

- **One-Stop Shop** - Create, upload and organize all your learning resources in one place

- **Rich, Iinteractive Learning** - Provide context around learning with embedded presentations, multimedia sharing platforms, various educational tools and more in the Brightspace Editor.

- **Differentiate** - Use Release Conditions to help customize learning paths for individuals or groups of learners

ASSESSMENT

- **Triangulate Assessment** - Build Quizzes, Assignments and Discussions to collect observations, conversations and products of student learning

- **Build Awesome Quizzes & Tests** - Create multimedia rich, customizable assessments from scratch or import your own items

BRIGHTSPACE

LEARNING FOR ALL

- **Make it Your Own** - Customize Brightspace for your Elementary or Secondary learners

- **Accessibility** - Deliver an accessible learning experience that can meet the needs of students, regardless of age or ability

COMMUNICATION

- **Use Multimedia** - Keep students up to date with Announcements and Activity Feed posts featuring images, audio, video, and more!

- **Make it Personal** - Use Video Note™ to create personalized content and feedback, and allow learners to see themselves in your class

WHAT ABOUT THIRD-PARTY TOOLS YOU KNOW AND LOVE?

Continue to Use the Tools You Love - We know you love using third-party tools to collaborate, communicate, and manage your classrooms. Continue using all your favorite third-party tools, such as Google Docs™ and Slides™, without ever having to leave the VLE.
