

Supporting Student Outcomes with Quality Professional Learning

The needs of students are constantly evolving, and quality teaching and leadership require resiliency, adaptability and the capacity to manage change.

ONE PLATFORM FOR ALL LEARNING

A single learning system means teachers can share the same learning experience as students. This familiarity can help enhance the utilization and adoption of Brightspace and inspire new ideas for how technology can support them to be more effective.

One of the surest ways to provide the best experience for students is making sure they have the best teachers. Help provide flexible and effective professional learning solutions that support high-quality teaching and learning, and ultimately lead to better student outcomes, with D2L Brightspace.

A PERSONALIZED EXPERIENCE FOR ALL

Your teachers have different training requirements, which need to be tracked, recorded and reported on. Features like self-registration, learning pathways and release conditions allow every learner to engage and succeed, regardless of learning style or accommodation needs. The flexibility of the platform means you can use Brightspace to help support your professional learning needs today and tomorrow.

ALL THE POWERFUL TOOLS AND FEATURES YOU NEED

Manage enrollment quickly and assign learning with ease using membership rules and shared attributes. Staff can then track their learning against outcomes, reflect on learning and receive feedback from mentors or leaders. Data and analytics dashboards can help track progress and give leadership visibility into trends. Embedded accessibility tools allow you to build engaging and inclusive content that students can access from any device at any time.

SERVICES COMPLETE THE OFFERING

The true effort of implementing a new professional learning platform for your staff is in implementing the training strategies required to help successfully support them. During implementation, we consider the role of Brightspace in alignment with the core values of your mission, vision and strategy. Beyond implementation, our experts create strong, collaborative relationships to help continually support you, design success plans, enhance your strategy, uplift courses and much more.

LEVERAGE AWARD-WINNING CONTENT

Leverage accredited content from providers such as BizLibrary and ISTEU to hit the ground running. With thousands of on-demand courses that are continually improved, a large variety of high-quality, interactive content topics specifically built for professional learning is ready to use in Brightspace.
