

Digital Resources That Support Learning in All Environments

Set teachers up with the tools and resources they need to deliver meaningful and effective digital learning experiences. That way, they'll have more time to spend on what matters most—their students.

D2L Adventure content libraries live within the D2L Brightspace platform and can be accessed by teachers and students to use in their classroom or at home. Lessons, activities and assessments for various grades and subjects are available, and teachers maintain full control over how the resources are used in their classrooms.

With Adventure's strong pedagogical design and approach, you can get started right away using the curriculum library as a supplemental resource in British Columbia. Adventure leverages the existing suite of robust Brightspace tools that teachers and students love. The click-and-drag interface makes it easy for educators to reorder lessons and units or substitute content with their own.

“This was the first time in a long time where I saw something and was like ‘this is **amazing**.’ If you want teachers to be better teachers, you need to give them the material so they can focus on **teaching**. The [Adventure curriculum-aligned resources] are the best thing I’ve seen in my teaching **experience**.”

Naomi Weller, Teacher with the Hamilton-Wentworth District School Board

TAKE A TEST DRIVE WITH THE STARTER PACK

Get a sample of Adventure resources added to your Brightspace environment at no cost, and watch your classroom transform. With a selection of activities and lessons in Grades 2, 5 and 8 math and language, teachers can easily integrate the materials into their existing plans and provide their students with a new experience.

SKILL DRILLS AND WORD WORK ACTIVITIES

Engage students with quick, simple interactive activities that can be completed online or in small groups to build fundamental math and literacy skills.

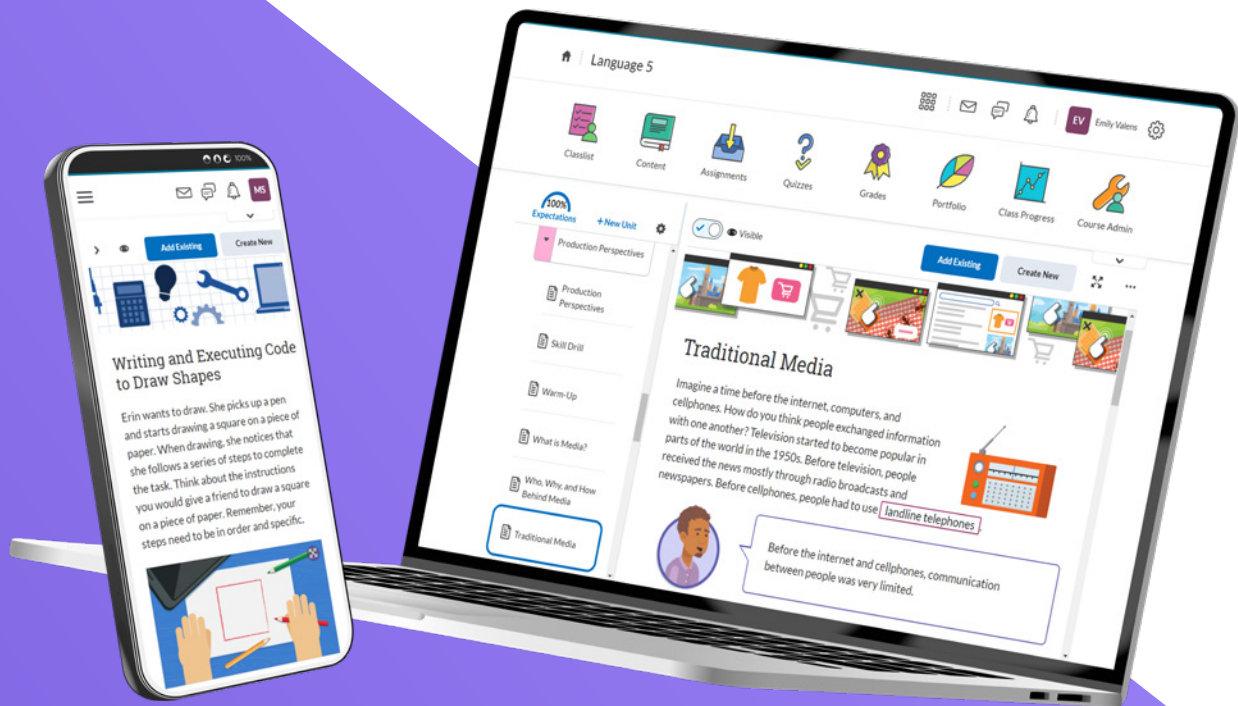

SAMPLE LESSONS

Access lessons for some of the core concepts being learned at each grade level.

ASSESSMENTS AND END OF UNIT ASSIGNMENTS

Try out online assessments and submissions and customize to fit your unique classroom.

Ready for the Starter Pack?
