

Enhancing Online Learning with QM-Aligned HTML Templates

D2L, in partnership with Quality Matters (QM), has developed a solution to improve the design, development and delivery of online education. Our QM-aligned HTML templates seamlessly integrate into Brightspace, enabling institutions to create high-quality, accessible and research-backed online courses with ease.

WHAT'S INCLUDED?

- Pre-designed HTML templates for key course components (Syllabus, Course Overview, Weekly Modules, Assessments).
- Guided instructional design prompts to help course authors create engaging and pedagogically sound courses.
- Responsive, mobile-friendly page layouts for an optimized, accessible learner experience on any device.
- Seamless integration with Brightspace, ensuring ease of implementation and consistency across courses.

KEY BENEFITS:

- **QM-Alignment & Course Quality** – Helps ensure all courses meet Quality Matters (QM) standards, providing a structured, high-quality learning experience.
- **Accessibility & Usability** – Fully compliant with WCAG 2.1 AA, designed for readability and usability across various devices.
- **Consistent, Intuitive Navigation** – Reduces cognitive load for students by offering a standardized course layout.

- **Instructor Efficiency** – Saves faculty time with pre-built, structured templates, allowing them to focus on content rather than formatting.
- **Engagement & Interactivity** – Encourages active learning through interactive elements such as accordions, tabs and embedded media.
- **Scalability & Customization** – Easily adaptable to fit different disciplines, teaching styles and institutional needs while maintaining instructional integrity.

IMPACT ON TEACHING & LEARNING

By integrating QM-aligned HTML templates, institutions can:

- Improve teaching effectiveness by reducing time spent on course design logistics.
- Enhance student learning experiences with intuitive, high-quality course layouts.
- Strengthen institutional reputation by delivering consistent, accessible and engaging online education.
