Your Voice Matters

To build Brightspace, D2L manages thousands of **customer inputs** across multiple channels every year.

How Product Feedback is Handled

New or Emerging Practice Idea

Submit a new PIE to request new features.

Different Approach Needed

Contact D2L Support or CSM for alternative solutions.

Something Isn't Working

Contact D2L Support for investigation and resolution.

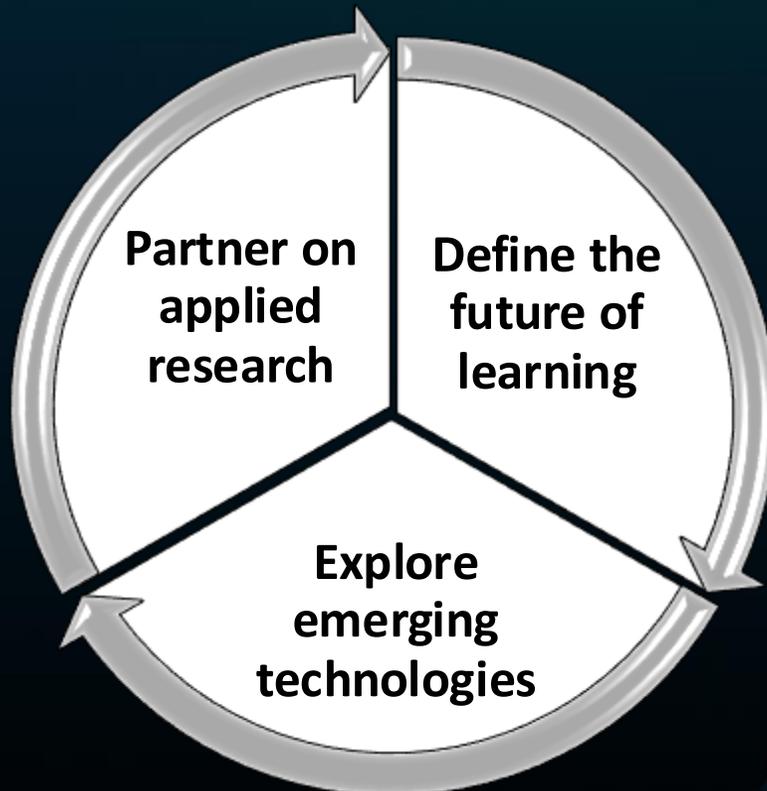

Critical Business Impact

If not addressed on roadmap already, escalate via CSM/TAM for roadmap adjustments.

D2L Labs

D2L Labs is our future tech incubator. We work collaboratively with customers on leading-edge research, prototypes and software development projects – focused on new and emerging technology.

Hoppit

Using AI to mitigate risks and discover opportunities for future career path planning.

Loop

Using natural language processing to provide more insight into how feedback given may be received.

Vrightspace

Exploring immersive VR integration with Brightspace with a VR-optimized view into courses and content.

Workload Analytics

Modelling workloads to help students plan their term and admins to manage their design.

BrightspaceBot

A natural language chatbot for Brightspace.

QuickerLinks

A “garage” style project that uses an extension to give learners quicker access to learning materials.

Easy Essays

Using natural language processing and machine learning to streamline the grading process.

Ethertificates

Exploring distributed ledger technology and smart contracts to build a network to validate credentials.

Homepage Messenger

A real-time communication channel for quick interactions within a course.

Noodler

Leveraging ML and principles of learning science to accelerate learning via a digital notebook.

Committed Public Roadmap

D2L Product Roadmap

A Look Into the Future

Great ideas don't just happen. They're planned, built and delivered with purpose. Explore how our evolving product roadmap brings visibility into the innovations shaping the future of learning.

How Product Investment is Directed

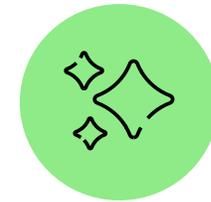

Evolving the Core Platform

Deliver excellence at the core of our product

Exceptional Learning Experiences

Create exceptional learning experiences at scale

Invested in Responsible AI

AI powered learning transformation for everyone

Investment Theme: Evolving the Core Platform

Delivering excellence at the core.

Self-Directed Learning, Made Intuitive

Personalized, interoperable tools help learners explore content, view personalized recommendations to actively shape their own learning journey.

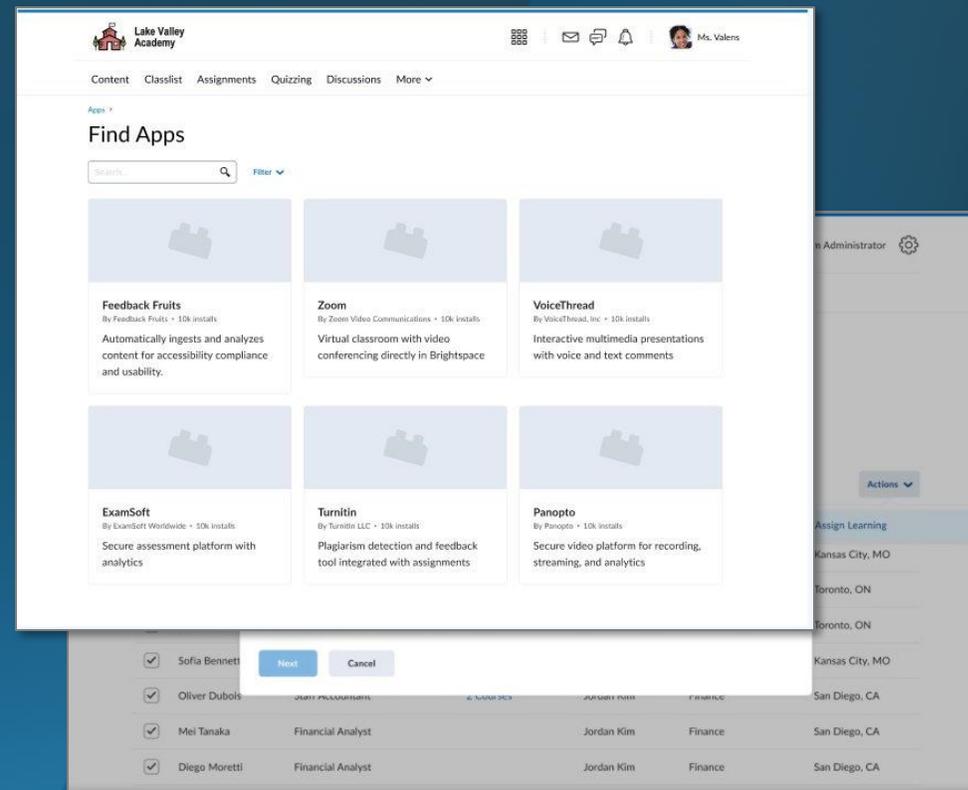

Reliable, Efficient Workflows

Core teaching and administrative experiences are simplified and consistent, enabling educators to focus on teaching.

Extensible By Design

Delivering an integration ecosystem delivers flexibility and familiarity at scale.

Investment Theme: Exceptional Learning Experiences

Empowering faculty to deliver consistent, skill-aligned learning experiences at scale

Engaged Learning

Learning experiences are built with greater consistency and clarity, ensuring content is aligned, engaging, and supportive of learner progress.

Create Once, Reuse Everywhere

Content creation is centralized and streamlined, reducing duplication and enabling faster updates, reuse, and improvement across courses.

Scale Quality and Consistency

Standardized content creation and lifecycle management help leaders ensure quality, alignment, and trust at institutional scale.

The screenshot displays the CREATSPACE dashboard. At the top, it says "CREATESPACE Dashboard Libraries" with a user profile icon and a refresh icon. Below this is a welcome message: "Welcome to Createspace Eva" with a small graphic and the text "Your collaborative hub for creating, editing, and sharing course content within your team." A blue button labeled "+ Create New Content" is visible. The main section is titled "Recent Courses" and lists four courses with their respective icons, course numbers, departments, and creation dates: "Advanced Algorithmic Analysis" (CSCI45B, Computer Science, Oct 1, 2024), "Data Structures and Algorithms" (CSCI310A, Dec 10, 2024), "Software Engineering Principles" (SE301-A, Software Engineering, Jan 15, 2025), and "Database Management Systems" (CSCI340A, Computer Science, July 4, 2024). A "View all Courses" link is at the bottom of this list. On the right side, there are two panels: "Libraries" with "Content", "Source Courses", and "H5P Interactives"; and "Recent Content" with "Charting Your Academic & Career Path" (Unit, Edited: Feb 25, 2025, Owner: You) and "Cybersecurity Leadership and Innovation" (Unit, Edited: Feb 25, 2025, Owner: You). A third panel at the bottom right shows "Bridging Theory and Practice: Solving".

This screenshot shows a user profile card for Zachary Friedman. It includes a profile picture, the name "Zachary Friedman" with the email "zfriedman", and a "Cancel" button. Below the profile card, there is a list of items, including "LiveItem-1506-2_2025-02-02" and "LiveItem-1075843-30000-Richcraft_Semplex_HEO_2025-01-31T12:00:00".

One Platform for All Workflows

Create

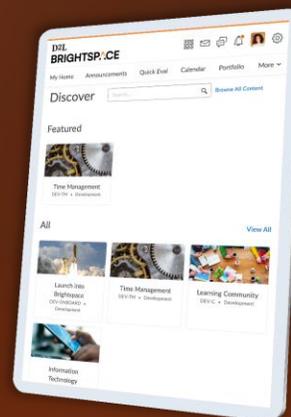

Beautiful, interactive learning experiences

Manage

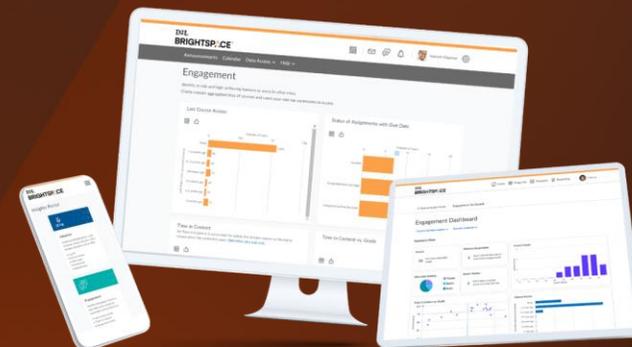

Distribution and sharing of content across faculties, programs with ease

Deliver

Do the Teaching & Learning

Measure

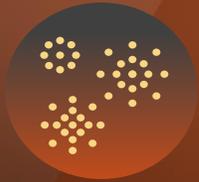

Measure your data to improve learner success, increase retention and improve your courses

Exceptional Learning Experiences

Enhancements to H5P

Accessibility Reporting

Admins can more deeply evaluate content readiness with an updated Accessibility Conformance Report and VPAT for selected H5P content types.

Streamlined Generation Workflow

Course authors can now create exciting H5P interactives with Smart Import faster and easier than ever.

Select Interactives by Instructional Intent

Quickly understand the available options and let Smart Import automatically give you the right interactives for the right purpose.

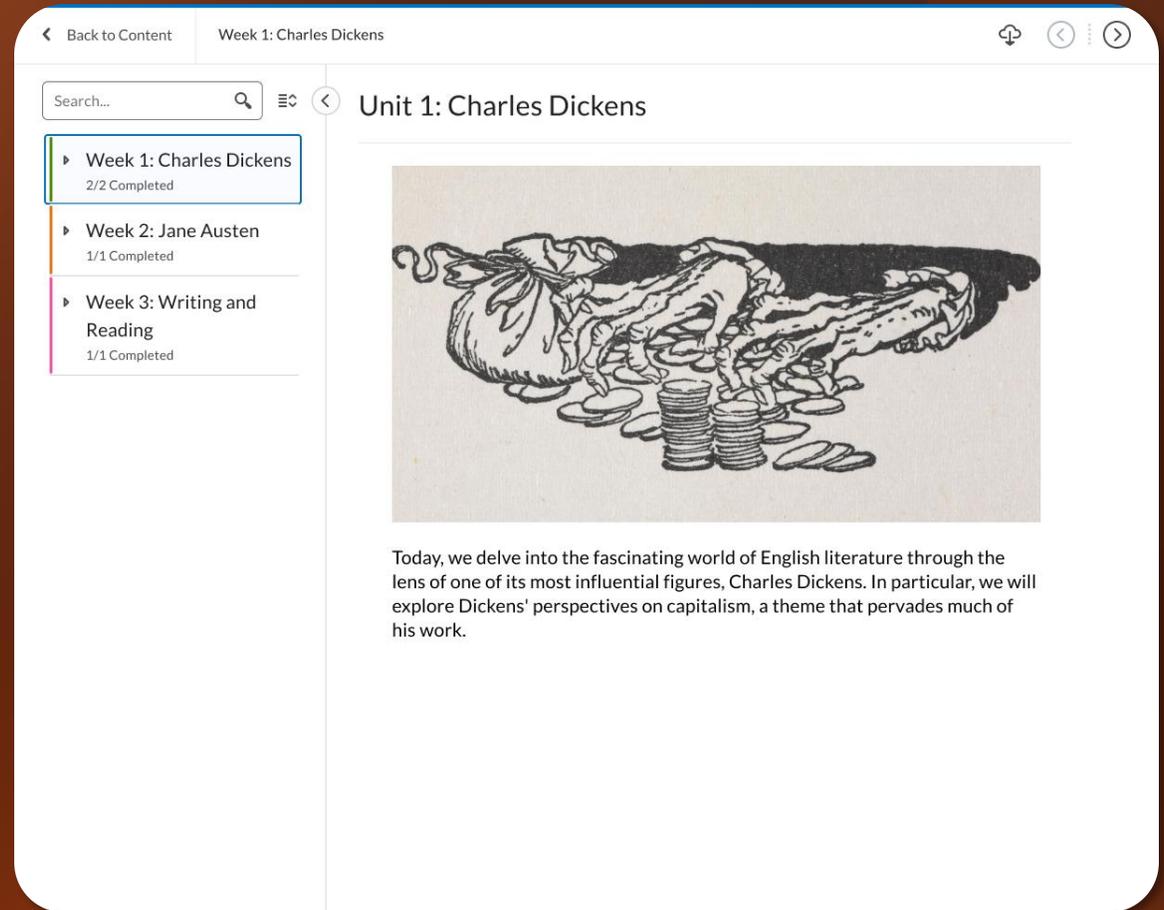

New Themes for H5P Content Types

Maintain consistent styling and institutional branding across courses, including native support for the Brightspace Daylight theme.

Immersive Viewer

Give learners a more accessible and inclusive reading experience with flexible display options, improved readability, fewer onscreen distractions and reduced scrolling.

The screenshot shows a digital learning interface. At the top, there are navigation links: '< Back to Content' and 'Week 1: Charles Dickens'. On the right side of the top bar are icons for a full-screen view, a back arrow, a refresh/circular arrow, and a forward arrow. Below the navigation is a search bar with the text 'Search...' and a magnifying glass icon. To the right of the search bar is a hamburger menu icon and a back arrow. The main content area is titled 'Unit 1: Charles Dickens'. On the left side of this area is a vertical navigation menu with three items: 'Week 1: Charles Dickens' (2/2 Completed), 'Week 2: Jane Austen' (1/1 Completed), and 'Week 3: Writing and Reading' (1/1 Completed). The main content area features a large illustration of a man in a top hat and coat, carrying a large sack, walking over a path of coins and stacks of money. Below the illustration is a paragraph of text: 'Today, we delve into the fascinating world of English literature through the lens of one of its most influential figures, Charles Dickens. In particular, we will explore Dickens' perspectives on capitalism, a theme that pervades much of his work.'

Investment Theme: Responsible AI

Reinventing the platform as an AI-driven, learner-centered experience

AI for Learners

One-size fits me: unlock deeper adaptive learning and next level personalization.

AI for Faculty and Admin

Enhance efficiency and provide valuable insight with powerful suites of authoring tools.

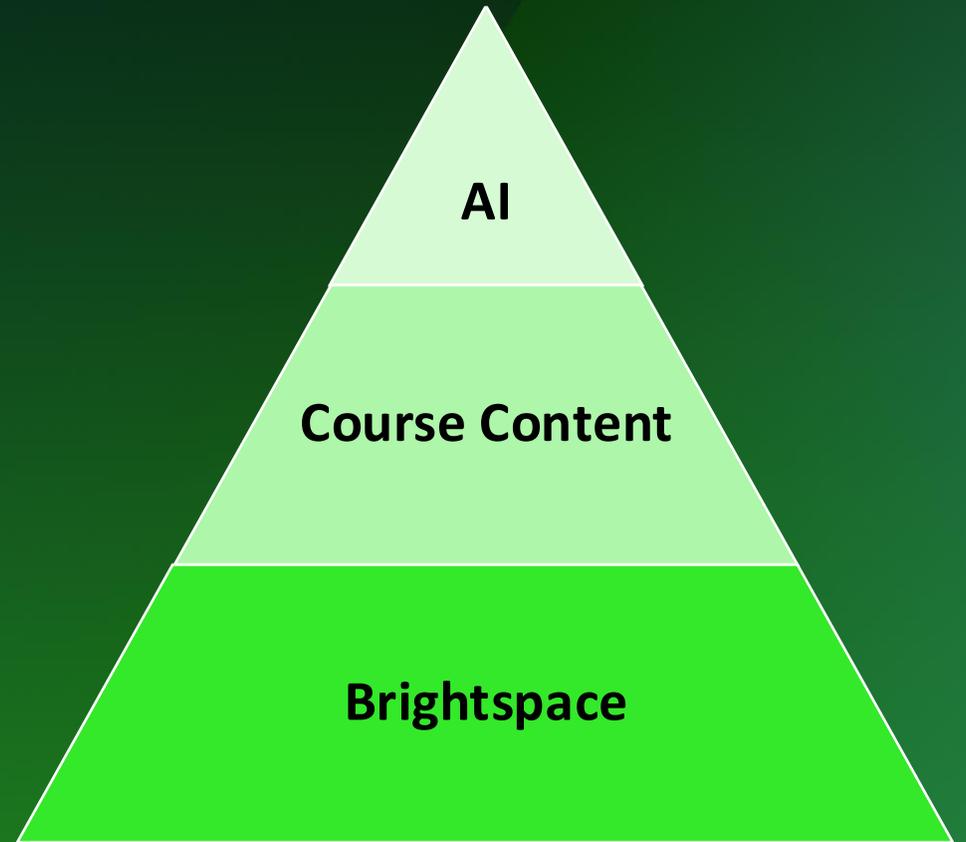

AI for Faculty Leadership

Support responsible use, ensure transparent insights, and deliver trusted outcomes.

Unifying our Data and Extensibility Strategy

Delivering excellence in the underlying mechanisms powering AI

D2L LUMI Tutor

Access A Cognitive
Coach At Every Step

The screenshot shows a web browser window with the D2L LUMI Tutor interface. The browser's address bar displays the URL: <https://d2lfusion25.brightspacedemo.com/d2l/common/dialogs/quickLink/quickLink.d2l?ou=6686&type=lti&rcode=BE500C18-B99D-48D6-8C43-66A0C60D499F-1463&sr...>. The page header includes the D2L logo and "English Literature" text. A navigation menu contains links for Content, Quick Eval, Assignments, Discussions, Quizzes, Classlist, Grades, Class Progress, Course Tools, and More. The main content area features a "Lumi Tutor" header and a greeting: "Hi! I'm Lumi Tutor 🌟". Below the greeting is a message: "I am here to help you study, plan, and prepare for exams. Ask me anything about your coursework!". There are three buttons: "Contact Support", "Self Study - Multiple Choice", and "Weekly Study Plan". At the bottom of the interface is a text input field with the placeholder "Ask Lumi Tutor Al..." and a submit button. The browser's taskbar at the bottom shows the system tray with weather information (85°F Sunny), search, and system icons, along with the date and time (9:46 AM 7/22/2025).

Artificial Intelligence

D2L LUMI

Feedback

Provide Educator-Driven
Feedback Faster

The screenshot displays the D2L LUMI interface for a 'Poetry Assignment' in 'English Literature'. The submission is by 'Amy Chen' and is titled 'Frozen Hearts'. The poem text is: 'Cold, loveless, and stoic. Oh, this life! The cold sidewalk roughly drives the feet. Grief, stress, and upset. Sadness, disruption, and frozen hearts.' A red circle highlights the author's name 'Amy Chen' with a feedback note: 'Could use less indent'. The right-hand panel, titled 'Edit Feedback', shows overall feedback and a 'Use of Poetry Elements' section with a score of 5.0 / 5. Below this is a 'View rubric' section with three columns: 'Uses ALL 6 elements: Structure; Imagery; Tone; Symbolism/Irony; Diction; Allusion' (5.0 points), 'Uses 4 of the 6 elements: Structure; Imagery; Tone; Symbolism/Irony; Diction; Allusion' (3.0 points), and 'Uses 2 of the 6 elements: Structure; Imagery; Tone; Symbolism/Irony; Diction; Allusion' (0.0 points). At the bottom, there are buttons for 'Adjust with AI' and 'Submit to Student'.

Artificial Intelligence

Expanded custom prompts for AI-generated questions and content

Custom prompts let you specify focus, tone and audience to tailor content more precisely.

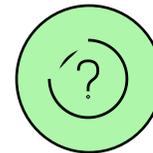

D2L Lumi Remix supports Creator+ interactive elements

Quickly transform static materials into engaging experiences at the push of a button while greatly reducing authoring time and effort.

Expanded AI usage insights with Brightspace Data Sets

Providing insight into AI usage patterns in parts of your organization structure such as departments or business units.

Inline clickable Citations

Chat interactions from D2L Lumi Chat and D2L Lumi Tutor can now display inline, clickable citations embedded within AI-generated responses.

Importance of the Roadmap

Progress with a Purpose

Customer Led Innovation

Ideas originate from real use cases and validated needs, with PIE acting as a signal for priority and impact.

Focused, Scalable Investment

Prioritize high-impact capabilities that scale across customers, roles, and use cases.

Intentional Transparency

Provide clear visibility into direction, progress, and decision-making.

Committed Public Roadmap
